ZJIES 1000D

Unmanaged DIN-Rail Industrial Ethernet Switches

Description

ZJIES1000 is a DIN-rail mounted plug a play Industrial Switches, redundant power supply, wide supply voltage, the overload and reverse polarity protection, the wide temperature range and anti-electromagnetic interference ability can fully satisfy harsh industrial environment , providing economical and reliable network access.

Features

★ 5 ports and 8 ports optional

★ Up to 8XFE/GE (E) /4XFE/GE(o) available, optical port is configurable

★ Dual power supply , the overload current and reverse polarity protection

★ IP40 Ingress protection, metal shell

★ Operating temperature : -40℃ ˜ 85 ℃
